UI snapshot

Extracted value

OK

Cancel

The diagram illustrates a 'Sensitive form' window. Inside, there is a 'Sensitive slider' control. The slider has a horizontal track with '0' at the left end and '100' at the right end. A blue circular knob with a black mouse pointer is positioned on the track. A red box highlights the knob area, with a red arrow pointing to it from the label 'UI snapshot'. Another red box highlights the numerical value '35' displayed to the right of the slider, with a red arrow pointing to it from the label 'Extracted value'. A third red box highlights the entire slider control area, with a red arrow pointing to it from the label 'Mouse pointer'. At the bottom of the window are two buttons: 'OK' and 'Cancel'.
